## SUMMARY

Software and web developer with 5+ years of project experience. Developed full-stack applications and mobile solutions, including a group scheduling tool and an Android wardrobe management app. Proficient in Python, React, JavaScript, and Kotlin. Experienced in managing projects from design through deployment and interested in roles that combine technical work with team leadership and client interaction.

## PROJECTS

### PlanD (2025)

- Developed a full-stack web application for group scheduling with user availability tracking.

### MLL Virtual Closet (2024)

- Built an Android app using Kotlin for outfit matching and wardrobe management.

### Other Projects:

- Created 2d Python games with Pygame and Tkinter like Sudoku, Tic Tac Toe and a Rock Paper Scissors LAN multiplayer games.
- Participated in two hackathons (1st and 3rd placements).

**All project can be seen and tested in my portfolio or Github**

## EXPERIENCE

### Independent Developer (2018–Present)

Managed complete project cycles from concept through deployment.

Collaborated in team projects during advanced courses and hackathons.

## EDUCATION

### Professional Courses (HackerU)

Course in full-stack web development

### Advanced Computer Science and Cybersecurity program (High School)

Specialized focus on Python, cybersecurity, collaborative projects, physics, and English.

## EXTRACURRICULAR

## ACTIVITIES

- Hackathon Awards: 1st and 3rd place in 24-hour events.
- Active in tech communities related to PC components, coding, and technology.
